

Trouble in the Ozone

Verse 1.

There's trouble in the O-zone, it's just a matter of time
And I'll be moving to a new zone, away from the water line
The planet's getting hot man, the cap is gonna drown
You know we've gotta stop man, cos it won't cool down

Chorus

Burnt emissions out of hand, ooh the disappearing sand
Multiply the cost of land ooooo ooh

Verse 2.

There's trouble in the O-zone, need some action now
From the man with the red phone, gotta use the power
The planet's getting hot man, the cap is gonna drown
You know we've gotta stop man, cos it won't cool down

Solo

Chorus

Burnt emissions out of hand, ooh the disappearing sand
Multiply the cost of land ooooo ooh

Verse 3.

There's trouble in the O-zone, it's just a matter of time
And I'll be moving to a new, zone away from the water line
The planets getting hot man, the cap is gonna drown
You know we've gotta stop man, co's it won't cool down
Co's it won't cool down, co's it won't cool down
