

# Got Nothing To Lose

## Verse 1

I've got six bucks and holes in my jeans  
Hitching a ride down to New Orleans  
Got a guitar tied on my back  
Guessing I'm on the right track  
Times have been tough, just had enough  
Of trying to fix holes in my shoes  
Got Nothing to lose

## Verse 2

Got some great songs I wann'a sing  
Need a cool place for doing my thing  
Kind'a small where, they'll hear me real clear  
Got a feeling they're gonna like what they hear  
I'm pretty sure, they'll be shouting for more  
Don't matter what song that I choose  
Got Nothing to lose

## Solo

## Verse 3

I guess I'm real happy, I made the right choice  
Got love in my heart and soul in my voice  
Staying on track, that's what it's about  
I gotta good feeling it's gonna work out  
When things don't go right, just keep up the fight  
It's no good having the blues  
Got nothing to lose
