

Got My Blues On

Chorus

Got my blues on, my blues on
And I'm going down into town
And I get some booze and I'll drink it down
And reflect upon, what's going on
And I aint going home until my blues are gone

Verse 1

I woke up this morning feeling like a winner
C'os I had a date with the cutest girl for dinner
She telephoned and blew me off at four
Said, she did not want to see me anymore

Chorus

Got my blues on, my blues on
And I'm going down into town
And I get some booze and I'll drink it down
And reflect upon, what's going on
And I aint going home until my blues are gone

Solo

Verse 2

The last time we both got together
I was thinking I could stay with her forever
Now I'm on a bar stool drinking shots and beer
And I've lost track of how long I've been here

Chorus 2

I got my blues on, my blues on
And I'm sitting down at the bar in town
I've got some booze, I'm chugging it down
And I'm reflecting on, what's going on
And I aint going home until my blues are gone
Got my blues on, got some booze on
And I'm falling down on the ground
And I need to get up man
Hey you, can you help me up
If you help me up I'll give you a ride home
