

## **I Must Forget My Blues and Get Back in the Groove.**

### **Verse 1**

I'm feeling low, I'm feeling down  
My baby's gone, It's all over town  
Must stop feeling blue, and get back in the groove

### **Verse 2**

I don't feel good, I'm all out of whack  
I just found out, she aint coming back  
Must stop feeling blue, and get back in the groove

### **Verse 3**

It aint been long, since she went away  
Now that she's gone, can't get through the day  
Must stop feeling blue, and get back in the groove

### **Solo**

### **Verse 4**

I heard today, she's not alone  
Hope she's O.K., maybe she'll phone  
Must stop feeling blue, and get back in the groove

### **Verse 5**

Since she's been gone, can't sleep at night  
Not till I know, that she's all right  
Must stop feeling blue, and get back in the groove
