

I'm out in the Rain

Verse 1

I'm out in the rain, I'm out in the rain
The sun is shining down but, I'm in the rain
Since my baby left me it's just grey skies and rain

Verse 2

I'm out in the rain, braving the storm
I've got no loving now keeping me warm
I'm so cold and lonely, I'm wishing that I'd never been born

Chorus

I'm out in the rain, out in the rain
Give me something to soak up the pain
There's just nowhere to shelter so
I'm out in the rain, out in the rain
I won't be a fool, a fool for love again

Solo

Verse 3

I'm out in the rain, I'm feeling so low
Nothing to live for, nowhere to go
I'm out in the rain cos I won't see my baby again

Chorus

I'm out in the rain, out in the rain
Give me something to soak up the pain
There's just nowhere to shelter, so
I'm out in the rain, out in the rain
I won't be a fool, a fool for love again
Repeat.
