

## Talking in Your Sleep

### Verse 1.

Talking, every night you're talking  
Until the daylight shines talking  
Don't wanna be near when you're talking  
Don't like what I hear when your talking  
Can't believe that it's real  
The things you reveal  
When you're talking in your sleep

### Verse 2.

Talking you keep me awake with your talking  
Just can't get no break from your talking  
Your biggest mistake is your talking  
had all I can take of your talking  
And I'm thinking right now the future looks bleak  
Cos you've been talking in your sleep

### Chorus

You act naïve, but please don't try it  
There's just no way, to justify it  
Your secret's out, so don't deny it  
Don't tell those lies  
I just won't buy it anymore  
Cos while you were asleep  
Your conscience would just keep talking

### Solo

### Chorus

You act naïve, but please don't try it  
There's just no way, to justify it  
Your secret's out, so don't deny it  
Don't tell those lies  
I just won't buy it anymore  
Cos while you were asleep  
Your conscience would just keep talking

### Verse 3.

Talking, every night you're talking  
Until the daylight shines talking

Don't wanna be near when you're talking  
Don't like what I hear when your talking  
Your biggest mistake is your talking  
Had all I can take of your talking
