

The Poser

Verse 1.

One drink at the bar will last him all night
The hair and the clothes have gotta be right
He gets on the floor with an air guitar
Wants you to think he's a superstar
Inside the head, he's Mr. dead
He's just a Poser

Verse 2.

He gets to the club around about four
Leaves a Porch outside the door
He goes to the Gym, to keep himself trim
He wants girls to keep looking at him
He aint got talent, he can't do a thing
He's just a Poser

Chorus

Poser, Poser just a dummy wearing fancy clothes
With a nice sun tan and a great hair do
lots of gold and a neat tattoo
The mirror on the wall is his favorite tool
Man he thinks he's cool

Verse 3.

The girl with the curls keeps flicking her hair
And laughing out loud so people will stare
She flutters her eyes, shows off her thighs
Just for the guys, is it any surprise?
All that she knows, is how to pose
She's just a Poser

Chorus

Poser, Poser just a dummy wearing fancy clothes
With a nice sun tan and a great hair do
lots of gold and a neat tattoo
The mirror on the wall is her favorite tool
Boy she thinks she's cool

Verse 4.

Next time you're in your favorite club

The restaurant the bar or the pub
Just look around, enjoy the view
There might be a Poser next to you
If everyone is looking your way
You've got a problem mate, OK
